## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Cook.

Cook shows a device for dispensing a viscous material comprising a grout holding member 10, plunger 34, first nozzle 46 and second nozzle 15.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sherbondy and Moore were cited to show further examples of air operated caulking devices having two nozzles.
